

Related SQM requirements	Type of Record	Retention Period
2.2 Statutory and regulatory requirements	Verification result of regulatory compliance management	15 years
	Data of chemical substances/ recycling of chemicals presented or submitted to Honda	15 years after discontinuation of production.
2.4 Drawing and Specification Change and Application	Countermeasure Request [Countermeasure Request Form]	20 years
	Supporting data to Countermeasure Request [Countermeasure Request Form]	20 years
2.5 Requirements for the Production Facility, Mold, Jig and Tool, etc.	Maintenance records of Honda-owned properties	20 years
	Records of actions for abnormal conditions of Honda-owned properties	20 years
	Color application plate	Revise as needed
	Approved actual part sample	Until a closing order for the production is issued.
	Routine maintenance records	1 year
2.6 Installation and control of measurement systems	Periodical check and calibration records	20 years
	Repair records	20 years after abolishment
	Manufacturing management plan	20 years
3.1 Product Assurance Plan for Manufacturing	Delivery Packaging Specification Form	5 years after application of parts is discontinued
3.2 Delivery Packing	Process Quality Control Table(I)	20 years after the issue of discontinuation order.
3.3 Process Quality Control Table (I)/Process Flow Chart	Process FMEA worksheet	20 years after the issue of discontinuation order.
3.5 Process Failure Mode and Effects Analysis (PFMEA)	Limit sample control form	Until a production closing order is issued.
3.6 Limit Sample and Master Sample	Limit sample duplicate ledger	Until a production closing order is issued.
	Process Quality Control Table(II)	20 years after the issue of discontinuation order.
3.7 Process Quality Control Table (II)/Control Plan	Collected Contaminants	1 year
	Contaminant Inspection Records	5 years
	Record of inspection results (Inspection Check Sheet, etc. for submission)	20 years
	Operation standard	20 years after the issue of discontinuation order.
3.8 Process instructions	Training record	20 years
	Monitoring data of manufacturing conditions of production facilities which affect quality.	20 years
3.9 Traceability	Lot-Control-Specified Parts Notice	20 years after the issue of discontinuation order.
	Lot Number Display Details, or equivalent	20 years after the issue of discontinuation order.
	Record of manufacturing history of parts	20 years
	Analysis Record [Analysis Report] or equivalent form	20 years
4.1 Delivery Quality at Pre-production Stage	Countermeasure Request [Countermeasure Request Form]	20 years
4.4 Process Capability Study	Records of process capability study	5 years after study
4.5 Production Validation Testing	Validity test plans/actual results	20 years
	Software validation sheet	20 years
4.6 Production Part Approval Process (PPAP)	Data and documents that provide evidence of Mass Production Transition Declaration	20 years
5.1 Initial quality control in Mass production	Process capability verification records	20 years
	Mass production verification records	20 years
5.2 Control Chart	Xbar – R control chart	20 years after creation
	p control chart	20 years after creation
5.4 Non-conforming Product Containment and Corrective	Rejection Countermeasure Request	20 years
	Analysis Record [Analysis Report]	20 years
	Records of corrective actions taken against in-house problems	5 years
	Rework and re-inspection record	5 years
	Supporting data to Analysis Record [Analysis Report]	20 years
5.5 Change Point Control	Self-Controlled IPP Communication Form	20 years
	Record of change points	20 years
	IPP control [IPP]	20 years
	Inspection data attached to IPP	20 years
5.6 Supplier Quality Audit (QAV)	Records of regular audit	20 years
	Records of occasional audit	20 years
6.2 Sub-supplier Management	Sub-suppliers List	Update to the latest version
	Audit records of sub-suppliers (or tier 2suppliers)	20 years
	Analysis Record [Analysis Report]	20 years
	Process quality control table	20 years after discontinuation of the model production
	Receiving inspection data	20 years
	Results of pre-production status confirmation	20 years
	Results of validation testing	20 years
